

Date: October 01, 2021

Dear Residents and loved ones of Allen Gray Care Centre,

**Our Covid-19 outbreak is over as of Sept. 30, 2021**

**Please read these guidelines before your next visit:**

- Please do not visit the Site unless you are fully vaccinated.
- Only two family members are allowed to visit residents on the units. Please do not visit residents other than your loved ones. Please stay in resident's room as much as possible to avoid exposure to other residents.
- If there are more than two visitors then you must take resident out to a private space/outdoor (maximum of 5 visitors including the resident-allowed). Please maintain hand hygiene and physical distancing.
- Please continue to **wear mask and face shield at all times** while you are in the building.
- Visitors should refrain from eating/drinking at the Site.

Please do not visit, if you have any Covid related symptoms. People who are fully vaccinated may not have respiratory symptoms, but still can be positive for covid-19. Fatigue, diarrhoea, sore throat and body aches are also symptoms of Covid-19 for those who are fully vaccinated. Please pay attention to those symptoms and refrain from your visit until you feel better.

As COVID-19 cases continue to rise significantly in the community, we would like to encourage everyone eligible to get immunized against COVID-19 as soon as possible. Immunization protects yourself and others and helps to prevent severe illness and hospitalization.

The health and safety of residents, families and staff is our first priority and a responsibility we take very seriously. Should there be any further updates, we will provide these to you as we receive them for the duration of the outbreak.

If you are a family member and would like further information, please visit the Government of Alberta website and book your appointment today.

Again, Thank you and we appreciate all the support and concern.

Sincerely,

Manju George, DOC, 

Charlotte McFadden, CEO
